

# Head Restraint Assembly Seating

Woodbridge provides solutions for both conventional foam-on-rod and foam-in-place headrest assemblies, meeting OEM specifications. We offer a variety of customized foam solutions, hardnesses, and densities, including dual density and energy management foams. Our complete in-house solution includes pattern development, build-to-print, and headrest assembly engineering.

## Options

### Foam-On-Rod Assembly

- + High-Resiliency Foam
- + Energy Management Foam
- + Dual Hardness Foam

### Foam-In-Place Head Restraint Assembly

- + Trim Cover
- + Integral Skin
